

BIBHU MISHRA

Principal Architect | Cloud, DevOps & Generative AI | Enterprise Delivery Leadership

Dallas, TX • +1 (972) 433-3734 • bm80177@gmail.com • [linkedin.com/in/mishrab](https://www.linkedin.com/in/mishrab) • Authorized to work in the U.S. (Permanent Resident)

EXECUTIVE SUMMARY

Principal-level technology leader with 18+ years spanning hands-on engineering, enterprise solution architecture, and delivery leadership of onshore/offshore teams up to 50. Proven record of turning ambiguous business goals into secure, scalable cloud-native and GenAI platforms — then guiding the teams that build, ship, and operate them. Trusted advisor to enterprise customers including Microsoft and Tenet Healthcare, owning roadmaps, managing expectations and escalations, and reporting to executive stakeholders. Deep domain grounding in Healthcare (EHR, HL7, HIPAA) and Content Management, paired with current expertise in Azure, Kubernetes, Terraform, and LLMOps. Equally effective defining architecture, mentoring engineers, and owning multi-million-dollar delivery commitments.

CORE COMPETENCIES

Leadership & Delivery: Team leadership & mentoring (teams up to 50) · Program & delivery management · Customer & stakeholder management · Pre-sales / RFP–RFI response · Governance & delivery excellence · Agile & Scrum

Architecture & Cloud: Enterprise & solution architecture · Azure (AKS, App Services, Functions, API Management, Front Door, Cosmos DB) · Kubernetes & containers · Terraform / IaC · Microservices

Generative AI & LLMOps: Agentic AI & RAG architecture · LangChain / LangGraph / AutoGen · LLM fine-tuning · MLflow / Langfuse observability · Azure OpenAI

DevSecOps & Reliability: CI/CD (Azure DevOps, GitHub) SAST / DAST / SCA (SonarQube, CodeQL, Snyk) Zero Trust / Microsoft SFI · Prometheus, Grafana, Azure Monitor · SRE

Domain Expertise: Healthcare (EHR, HL7, HIPAA, EMR) Content Management & Digital Marketing · Capital Markets · Utility (AMI / MDM) Credit (PLCC)

PROFESSIONAL EXPERIENCE

Microsoft (via LTI Mindtree)

Dallas, TX

Principal Architect — GenAI Enablement Practice

Jun 2025 – Present

Founding architect of a GenAI enablement practice within Microsoft's Business Unit, chartered to operationalize generative AI across development, support, and DevOps organizations.

- **Shaped the practice's architecture, tooling strategy, and adoption roadmap**, partnering with product and engineering leaders to prioritize high-impact use cases and deliver measurable productivity gains.
- **Led design-to-production delivery of flagship GenAI solutions** — including "SRE Buddy," an agentic RAG assistant integrating ICM, Kusto, and Azure DevOps — guiding engineering teams through architecture, build, and rollout.
- **Directed fine-tuned LLM experimentation** for incident classification, ticket routing, and cause-code analysis, reducing manual triage effort across SRE teams.
- **Established a scalable AKS hosting and CI/CD model** with Langfuse and Grafana observability for prompt/response evaluation, governance, and guardrails.
- **Drove GenAI enablement and responsible-use standards**, coordinating training with vendors and SMEs to upskill multiple engineering teams.

Principal Architect — DevOps, Microsoft Marketing Web (GDC)

Sep 2022 – Present

Lead architect and delivery owner for DevOps/SRE across 100+ Microsoft marketing websites; accountable for reliability, security, and engineering productivity.

- **Led the DevOps/SRE team end-to-end**, setting technical direction and mentoring engineers while ensuring high availability and operational excellence.

- **Architected and migrated 40+ Microsoft.com blog and news sites to AKS**, reducing infrastructure cost by 40%.
- **Built self-healing, auto-scaling AKS clusters with Terraform and Helm**; enforced RBAC, pod security, image scanning, and Azure AD authentication.
- **Drove Secure SDLC and Microsoft SFI / Zero Trust adoption** (passwordless, OAuth), authoring threat models, privacy reviews, and BCDR plans.
- **Automated SRE operations** with custom Azure, LangChain, and Azure OpenAI tooling, and built centralized observability with Datadog, Prometheus, Grafana, and Azure Monitor.

Tenet Healthcare (via NTT Data / Dell)

Dallas, TX

Technical Architect & Delivery Lead — DevOps & App Modernization

Nov 2021 – Sep 2022

Architected and led modernization of Tenet's application delivery platform and consumer web estate, managing customer expectations across security, compliance, and timeline.

- **Drove enterprise Azure DevOps adoption**; migrated 60+ projects from legacy TFS, standardizing Git, Boards, and CI/CD across .NET, Node.js, Java, and Python.
- **Led migration of 48 consumer websites to a custom ASP.NET Core / Vue.js / Sitefinity CMS**, raising availability to 99.99% and Lighthouse scores from single digits to 80%.
- **Designed security controls** (Azure AD, RBAC, branch policies, pipeline approvals) and integrated SonarQube to enforce Secure SDLC.
- **Migrated workloads to AKS, App Services, and Functions** and established real-time monitoring and incident response; ran training and workshops to de-risk the team transition.

Tower Leader — Enterprise App Support & SharePoint Modernization

May 2015 – Nov 2021

Owned a \$5M/year enterprise portfolio (consumer sites, SharePoint portals, BPM apps) serving 160K users across 48 hospitals; led onshore/offshore teams of 20+.

- **Directed incident and problem management under ITIL**, reducing ticket volume 60% over two years through automation and root-cause analysis.
- **Managed customer feedback, escalations, and executive stakeholder communications**, ensuring SLA compliance and alignment with business priorities.
- **Transitioned applications from third-party vendors to in-house support**, reducing operational cost and improving service continuity.
- **Led consolidation and migration of a 4TB+ SharePoint estate** (40+ hospital intranets, 40+ consumer sites) with governance, access control, and end-user training.

Dell Services

Bengaluru, India

Practice Delivery Leader — Microsoft SharePoint Practice

Apr 2013 – Apr 2015

Built and led Dell's SharePoint practice within the Microsoft horizontal, managing a 25-person team across Bengaluru and Noida.

- **Institutionalized delivery excellence** — reusable asset repository, coding standards, governance, and operational reviews.
- **Developed fixed-price service offerings** (SharePoint migration, knowledge management, ITIL) with sales collateral, supporting pre-sales and RFP/RFI response.
- **Led capability building** through training, certification, and demand-supply planning; partnered with Dell Software Group on optimized delivery models.

Project Lead — BizTalk Orchestration (Owens & Minor)

Nov 2011 – Mar 2013

- **Led offshore delivery of a centralized BizTalk ESB layer** replacing point-to-point integrations; owned WBS, estimates, quality reviews, audits, and stakeholder reporting.

Practice Lead — Microsoft Amalga EMR Program

Sep 2009 – Nov 2011

- **Built Amalga UIS competency for Dell and led implementations** at Moses Cone, Norton Healthcare, and St. Joe Hospitals using HL7/XML standards, managed offshore delivery and quality.

EDUCATION & CERTIFICATIONS

- **Post Graduate Diploma in IT (Executive Management)**, VGSOM, IIT Kharagpur, India
- **B. Tech, Electrical Engineering**, CET, OUAT Bhubaneswar, India
- **Post Graduate in AI/ML & GenAI** — In Progress

Certifications: AZ-400 (DevOps Engineer Expert) AZ-104 (Azure Administrator) CKAD · Terraform Associate · PMP · PSM I (Scrum Master) HL7 Healthcare Messaging
