

Yashwanth Srinivas
DevOps Engineer

yashwanthsrinivas94@gmail.com
Mobile Number: 9908145133

Overview:

Experienced in Cloud Computing in Azure, Infrastructure Management using Terraform, configuring Build and Release (CI/CD) in Azure DevOps, version controlling with GitHub/Lab, Hashi Corp Vault for Secret Management, understanding of Containerized workflow's using Docker and Container Orchestration with Kubernetes, Reliability of Service's in Microsoft Service 360.

Skills: Azure Cloud & DevOps, Terraform, GitHub, Hashi Corp Vault, Docker, Kubernetes, Service 360.

Technical Experience:

- Developed Build and Release Management with **CI/CD** Pipelines in **Azure DevOps**.
- Managed **YAML** and Classic Editor Pipeline's based on various conditions, stages, and tasks.
- Maintained Clean Repository in the Azure Container Registry with Prisma Cloud Scan.
- Automated Infrastructure Provisioning with **Terraform** developing Modules and Templates.
- Executed Application Deployments for various .NET, Java, and Angular Web Applications using **Azure Pipelines**.
- Integrated **SonarQube**, Truffle Hog, Blackduck, Tenable into Pipelines to detect the vulnerabilities.
- Resolved **Git** related issues such as merge conflicts using pull request and branching strategy.
- Stored and retrieved secrets in **Hashi Corp Vault integrated** with CI/CD pipelines during deployment.
- Containerized Application workflow using **Docker** and **Kubernetes** Clusters for Orchestration.
- Maintained **Reliability** of Accountable Services in Microsoft **Service 360**.
- Ensured **Compliance** with industry best practices and organizational policies.
- Improved Processes and used **Automation** to enhance Efficiency and Productivity.
- Directed with Development Teams to ensure process follows **DevOps** Guidelines and Standards.
- Planned **Cloud Migration** with Azure Migrate, Recovery Services Vault, and River Meadow.

Professional Experience:

- **LTM** - Senior Software Engineer - (Sep 2025 - Present) - Container Security and Cluster Management.
- **Infosys** - Associate Consultant - (Apr 2024 - Aug 2025) - Application Deployment and Infrastructure Management.
- **TCS** - Assistant System Engineer - (Feb 2021 - Mar 2024) - Migrated workloads from on-premises to Azure.

Achievements:

- ✓ Consistently Top performer in the team with highest rating and band.
- ✓ Multiple Awards for outstanding contribution, dedication, and commitment.
- ✓ Appreciation from Client for efficient delivery with the best feedback and recommendations.

Certifications:

- ❖ Microsoft Certified Azure DevOps Engineer Expert. [**AZ-400**]
- ❖ Microsoft Certified Azure Administrator Associate. [**AZ-104**]
- ❖ Microsoft Certified Azure Cloud Fundamentals. [**AZ-900**]

Education: Bachelor's degree in computer science.
